

What will the market be like when it's time to sell *your* home?

WITH HOME PRICE PROTECTION™ IT DOESN'T MATTER

Home Price Protection provides financial protection in the event the local housing market declines at the time you need or choose to put your home up for sale. If you're like most people, your home represents your biggest financial asset. Which means a drop in the market can have devastating consequences. So how about some peace of mind? With Home Price Protection, there's never a bad time to sell. That's because it:

- ☑ Pays you if the local market index declines – even if your home sells for a profit.
- ☑ Allows you to make improvements and maintain upkeep on your home, adding to the overall value of the community.
- ☑ Gives you the flexibility to relocate for a new job or new opportunities
- ☑ Instills the confidence that comes with peace of mind.

**HOME PRICE PROTECTION PROTECTS THE VALUE OF YOUR HOME,
REGARDLESS OF MARKET CONDITIONS**
